

## RESIDENTIAL PROJECTS

**Energy Calcs with the Manual S, Manual J and Manual D Calcs with the duct layout.**

SQFT = Conditioned Square Footage of House

AC = Air Conditioning split-system or mini-split

Our default is a heat pump unless customer requests "straight cool"

### UPTO 2,500 SQFT

1 AC UNIT - \$500

2 AC UNITS - \$550

One and two-room additions and garage enclosures (under 700 sqft) that will be heated/cooled with a ductless mini-split heat pump of SEER2 18 or higher. Discount of \$150 off which is \$350.

### UPTO 3,500 SQFT

1 AC UNIT - \$600

2 AC UNITS - \$750

3 AC UNITS - \$900

### UPTO 4,500 SQFT

1 AC UNIT - \$900

2 AC UNITS - \$1200

3 AC UNITS - \$1500

Larger than 4,500 SQFT

Custom Quote with pricing starting at \$1500

Reuse and identical houses: An identical house is a house that has no changes except orientation and address. A house that is mirrored is not an identical house. The fee for calcs for the identical house (reuse fee) is 75% of the original calculation (rounded down to nearest \$10). Example 2500 sqft house with one heat pump original fee is \$450 and the reuse fee for calcs on 2nd identical house is \$335.

Prices subject to change at any time. Extenuating conditions such added complexity or requirements of the project can cause fees to be higher than stated above. This pricing list expires on or before March 1, 2025
